

## CHAIRMAN'S CORNER

JANUARY 2006 SFV-ASIS NEWSLETTER

**Happy New Year to each and every one of you!**

**As many of you can attest, your San Fernando Valley Chapter 130 accomplished practically every goal it set out to achieve last year!**

***Mike Pirouzian* led our Chapter as Chairman and worked tirelessly to ensure our team and core members were on the same page throughout the year. As you know, this is no easy task.**

**We were very excited to have *Bob Lee* come back to the chapter. Bob was such a positive influence and his hard work and dedication was directly related to our success.**

***Dylan Anderson* accentuated our Chapter's professionalism with his work as our Web-Master. If you're associated with our Chapter, you have to be proud of our Website and the many functions it provides our members.**

***Pat Salter* was in charge of our Newsletter, which again exemplified our professionalism. Pat did a wonderful job as our Editor.**

***Gary Bradley* served as our Secretary and Co-Counsel with the irrepressible and notorious *Barry Bradley* (Bradley & Gmelich).**

**Naturally, we would be remiss not to mention *Ron Buehler*, our Treasure! Ron was in charge of our books and collecting those hefty breakfast dues every month. Ron wanted to personally thank everyone for their monetary contributions this past year. Strangely, he said that to me before he left on some extravagant vacation to the Caribbean, (ummm)**

**We all had a lot of fun this past year and I believe it was culminated with our Law Enforcement and Private Security Appreciation Day, held back in September.**

**Those previously named along with the likes of *Ann Marie Piersol*, *Terry Petrillo*, *Doug Bryant*, *Walt Kainz*, our photographer *Pamela Chamberlain* and our very special honoree, *Jack Egger* made this event one of the most successful LEAPS, in our Chapter's 25-year history.**

2006 will be filled with many challenges and opportunities for all of us. I hope that the majority of you can grasp the ideals and enthusiasm with the likes of our newest member and volunteer *Andrea Cunningham* (The Walt Disney Studio).

Andrea has volunteered for our Program Committee and has already provided us with an extraordinary event.

In October, our Chapter will be meeting at the Disney Studios for what is planned to be a very magical and memorable evening.

Our initial assemblage in January will be the first of "Can't Miss" meetings when *Gary Bradley* (Bradley & Gmelich) will be presenting a "*Business Practice Checklist*"

With all of the New Year's resolutions you made, this is one worth keeping. California has numerous regulations that are designed to protect your business and personal assets from attack. However, all of these protections are useless if you fail to follow the rules entitling business owners to such protection.

Wow! This presentation with handouts would cost you a pretty penny for just a consultation! Bring your business partners and company legal representatives to this important event.

Happy New Year

&

We'll see you on January 10<sup>th</sup>.

Craig Chamberlain
